

LISTING OF CLAIMS

1 1 (Currently Amended). A travel food scissor for cutting of
2 food prepared for a child comprising:

3 a pair of scissors having teeth serrations along at
4 least one of the two opposing cutting edges thereof; and

5 a releasably openable closed carry case housing said
6 scissors of a size to fit within a shirt or blouse pocket, a
7 purse, handbag or pocketbook -i

8 wherein said pair of scissors are of a metal composition;

9 and

10 wherein said closed carry case is to be opened for the
11 removal of said scissors substantially only at an eating
12 establishment where plastic knives and forks are provided as
13 cutting utensils for the food prepared for the child.

1 2 (Original). The travel food scissor of Claim 1, with
2 serrations along both of said opposing cutting edges of said
3 pair of scissors.

1 3 (Original). The travel food scissor of Claim 1, with said
2 carry case being of a length not in excess of six inches.

1 4 (Original). The travel food scissor of Claim 1, with said
2 carry case being of a width not in excess of four inches.

1 5 (Original). The travel food scissor of Claim 1, with said

2 carry case being of a length not in excess of six inches and of
3 a width not in excess of four inches.

1 6 (Original). The travel food scissor of Claim 1 wherein
2 said carry case is closed at one end and includes a flip-open
3 cover at an opposite end thereof.

1 7 (Original). The travel food scissor of Claim 6 wherein
2 said closed end of said carry case is of a narrower width than
3 at said opposite end.

1 8 (Original). The travel food scissor of Claim 7 wherein
2 said opposite end of said carry case includes a pair of first
3 wall surfaces upwardly extending from an underlying lid to
4 respectively join with a pair of second wall surfaces downwardly
5 extending from said flip-open cover.

1 9 (Original). The travel food scissor of Claim 7 wherein
2 said opposite end of said carry case includes a pair of curved
3 wall surfaces upwardly extending from an underlying lid to
4 respectively join with a pair of straight wall surfaces
5 downwardly extending from said flip-open cover.

1 10 (Original). The travel food scissor of Claim 8 wherein
2 said underlying lid includes an end extension of a rear surface
3 of said carry case and wherein said flip-open cover comprises an
4 overlying end extension of a front surface of said case.

1 11 (Original). The travel food scissor of Claim 10 wherein
2 said carry case is of a plastic composition.

1 12 (Original). The travel food scissor of Claim 10 wherein
2 said pair of scissors is of a stainless steel composition.

1 13 (Original). The travel food scissor of Claim 10 wherein
2 said flip-open cover is hinged to said front surface of said
3 carry case.

1 14 (Original). The travel food scissor of Claim 10 wherein
2 said carry case is of a length, width and depth not to exceed
3 six inches, four inches and one inch respectively.
